These are already the most used item in my mini-toolkit. From the smallest stationery section to the most secure vaults - these little buggers are good at everything. £1.50 for a pack of 20. They're on special at

Waterstone's for just £3.85 On Amazon.com for \$1.19 Other places for just \$1.99. But don't forget to check for the Waterstone's promotional box on eBay. A great bargain at £1.95! I highly recommend these. UPDATE! I was asked to make a video about them, so I did. This was uploaded to Youtube by The LawmanTheory of quantum Hall states of the fractional spin-polarized Pfaffian and anti-Pfaffian states of graphene: implications for the edge-transition problem. We propose a theory of the quantum Hall states in spin-polarized graphene, which reveal the effect of various spin-dependent interactions on the new fractional quantum Hall states of the Pfaffian 82157476af
